

WEBINAR V6.0

# METAL COMPONENTS PLASTIC COMPONENTS ZIPPER PULLERS

## PART 6

**ALUTICA TILT HEAD: CLIP HOOK (HH046)**

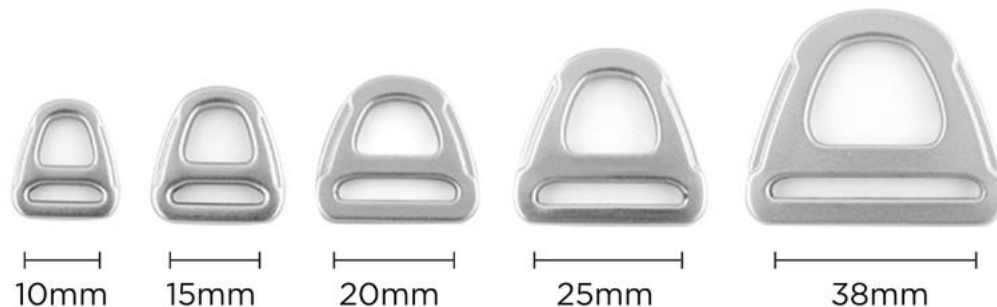

- This clip hook is available in multiple sizes corresponding to webbing width, with strong performance across the range.
- Its design ensures quick attachment and detachment.

**ALUTICA\_TILT HEAD: TOGGLE REGULAR (HH157)**

- Provide an optimal balance of lightweight design and superior durability, suitable for performance gear, bags, or apparel.
- Its construction and finish allow for custom color anodization to match specific product requirements.

## ● ALUTICA\_ CAN TAP D-RING (HH025)

**The Can Tap D-Ring** is available in multiple sizes to accommodate various webbing widths, and it notably provides significantly higher tensile strength compared to the Clip Hook due to its fixed, closed design.

### Key Features:

- Crafted from aircraft-grade aluminum, provides extra durability and high performance, functioning as a robust fixed connection point.
- Its primary purpose is to create a strong, permanent loop or anchor on a piece of gear, often used as an attachment point for accessories, straps.
- The inclusion of laser etching makes it ideal for branding and customization.

### ALUTICA\_ CAN TAP D-RING (HH025)

- Built with aircraft-grade aluminum for extra performance and reliability on backpacks, belts, and apparel.
- Available in 10mm to 38mm webbing sizes.

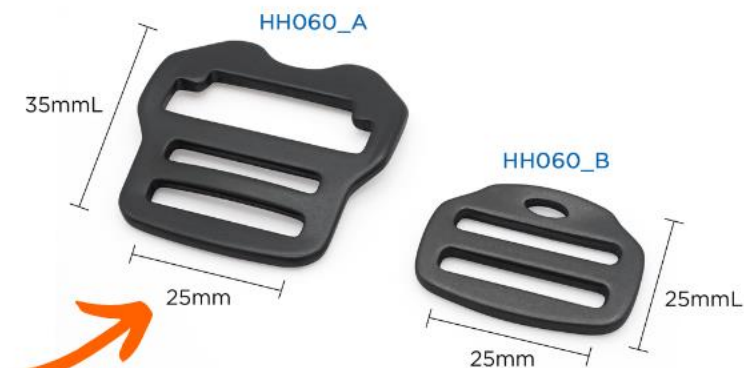

### ALUTICA TILT HEAD: CLIP HOOK (HH046)

- A stylish and modern clip hook designed for quick, single-handed use.
- Versatile enough to fasten keychains, outdoor gear, tent shades, or essential straps.

## ● ALUTICA TILT HEAD: HIP BELT BUCKLE (HH060 DUAL)

**DUAL**

- **Load-bearing:** Engineered for serious outdoor and heavy-duty backpacks, the Alutica Tilt Head Hip Belt Buckle is designed to transfer 60-80% of your pack's weight comfortably onto your hips, maximizing efficiency and comfort on the trail.
- **Corrosion-resistant:** Ideal for outdoor and wet environments.
- **Non-slip security:** Keeps your hip belt strip securely fastened under load.
- **One-hand functionality:** Quick, easy locking and unlocking.

## ● ALUTICA TILT HEAD: CLIP HOOK (HH046)

The Tilt Head Series design enables smooth, one-handed operation, making attachment and detachment simple and quick, even when you're on the move. Its metallic gate ensures a secure closure without sacrificing ease of use.

### **Versatile applications:**

- Attaching water bottles or gear to backpacks/ shoulder straps.
- Securing camping lights or supplies to tents/ tarps.
- Organizing keys (keychains).
- Use with webbing straps (available in multiple sizes up to 38mm).

## ALUTICA TILT HEAD: CLIP HOOK (HH046)

- Features a modern, stylish design that allows for easy, one-handed operation.
- Its unique tilt-head mechanism provides quick and effortless attachment, making it an ideal choice for both practical use and a clean aesthetic.

## MINI CARABINER (HH256)

- This mini clip hook is a lightweight and durable accessory, perfect for attaching keys, small gear, or charms to your bag, belt loop, or backpack.
- Its compact size makes it a convenient and unobtrusive addition to your everyday carry.

## ● EXCLUSIVE METALLIC HANDLE (HG521)

Life-saving tool - Firefighting - North America - True North
