

ALUTICA_TILT HEAD: TOGGLE REGULAR (HH157)

- Crafted from durable metal, the toggle provides a premium, tactile weight and a superior finish that plastic toggles simply cannot match.
- This toggle features an innovative Tilt-Head mechanism that uses a hinged, pressure-based lock for zero-slip performance on paracord or cording.
- Its clean design and flawless surface treatment make it a key aesthetic feature, ready to accept custom finishes to match your product line.
